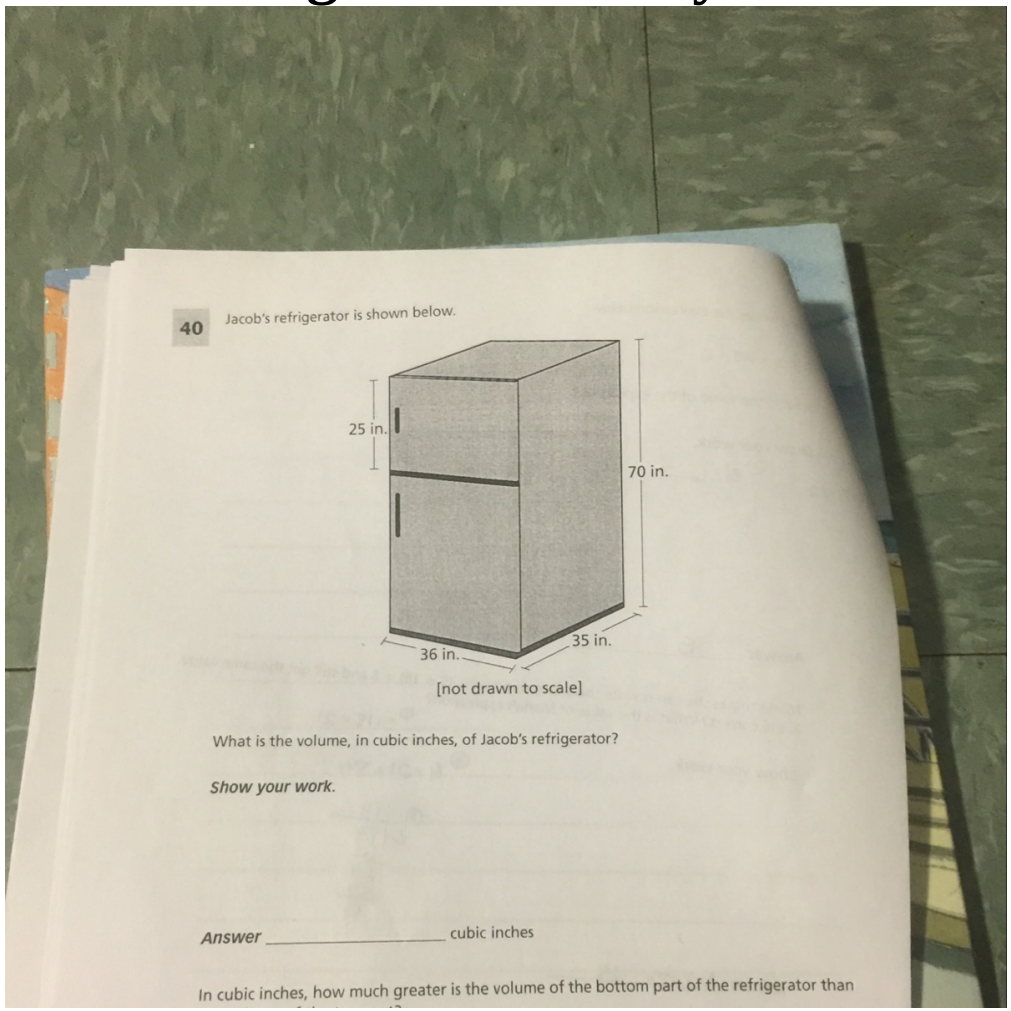
This is 5th grade work if you needed to know



Answer 1
Answer: To find volume multiply base times width times height.
The dimensions of the fridge is 36 x 35 x 70.
Multiply 36 x 35 to get 1260.
Multiply 1260 x 70 to get 88200.
The volume of the fridge is: 88,200 cubic inches.

Hope this helps!
Answer 2
Answer:

Answer:

88,200 cubeic in.

88,200 = volume

Step-by-step explanation:
